Cause Effect Diagram

3W2H / 5W2H	Phenomenon of Problem / Question	Explanation / Answer
WHY	Why are all quality objectives fixed for December 2024 without justification or detailed roadmap?	The target dates were assigned without considering a detailed analysis or planning process.
WHY	Why were the target dates assigned without proper analysis or planning?	There was no structured review or discussion regarding the feasibility of achieving these objectives within the set time frame.
WHY	Why was there no structured review or discussion?	Because the process for setting and reviewing the quality objectives lacked clear guidelines for creating a detailed timeline or roadmap.
WHY	Why was there a lack of guidelines for creating a detailed timeline or roadmap?	The Lab's quality management system does not require a clear method for establishing specific, measurable, and realistic target dates with a supporting roadmap.
WHY	Why does the quality management system lack these requirements?	The system was not sufficiently developed to ensure comprehensive planning, justification, and roadmap creation for quality objectives.

How	How can we ensure that the quality objectives are given appropriate target dates?	By implementing a process to assess the feasibility and resources required to meet each quality objective before assigning target dates, ensuring that objectives are achievable with clear timelines.
How	How can we create a detailed roadmap for achieving the quality objectives?	By including specific steps, milestones, responsible persons, and required resources for each objective, ensuring that the entire process is documented and monitored periodically.
Root Cause: The root cause of the nonconformance is a lack of a structured and systematic approach within the Lab's quality management system to plan, justify, and document realistic target dates with clear roadmaps for achieving quality objectives.		

RCA Statement: The root cause of the nonconformance is a lack of a structured and systematic approach within the Lab's quality management system to plan, justify, and document realistic target dates with clear roadmaps for achieving quality objectives.
