

NON-CONFORMITY REPORT FOR ASSESSMENT VISIT

F-02/06
Issue Date: 11/11/19
Rev No: 06

ACTIVITY:	☒ Assessment	☐ Surveillance	NCR No: 02 TL
	☐ Re-Assessment	☐ Scope extension	Accr./Appl.No:
	☐ Other Please specify:		Non-conformity category: Very serious ☐ Essential ☒
			Time limit for correction: 03 months
ORGANIZATION:	Quality control Lab vital Agri. Nutrients (Pvt) Ltd.		Mr. Himmyat Hussain
Department:	Labs		
Team Leader:	Mr. Ateeq Ur Rehman	Mngt. Rep.	
Assessor	Dr. Muhammad Aftab		
Expert			
DESCRIPTION: The lab has a developed a procedure (QCL/LSP/14) for the non-conforming work. The procedure normally describes about the non-conformities. (NC) The lab has not defined responsibilities and authorities for the management of non-conforming work, (NC) The lab has developed a register for recording the non-conforming work, but lab not checking the significance. (NC) 10-01-2025 _____ Date Signature Assessor/Expert Signature (Management Representative)			Requirement of: 7.10 ISO/IEC 17025 ☒ ISO 15189 ☐ ISO/IEC 17021 ☐ ISO/IEC 17020 ☐ Others: Ref. Organization's doc.
CORRECTIVE ACTIONS: (Note: It is mandatory to attach Root Cause Analysis) Corrective action for shortcomings on all the NCs has been taken by revising the procedure (QCL-LSP-14) and defined the responsibilities and authorities for the management of non-conforming work. The lab has revised the format on register and added the significance evaluation. Action are documented in the amendment no: <u>CA-12-02-25</u> <u>10-02-25</u> _____ Date Signature (Management Representative)			☐ It is not necessary to attach documentation
REASON FOR CLOSING: (To be filled in by the Team Leader.) ☐ The non-conformity is closed based on satisfactory documentation from the organization ☐ The non-conformity is closed based on recommendation from the technical assessor ☐ Implementation of the corrective actions will be followed up at the next visit Remarks (if any)----- ----- The non-conformity is closed: _____ Date Signature (Team Leader.)

A. Description (to be filled by Initiator) The lab has a developed a procedure (QCL/LSP/14) for the non- conforming work. The procedure normally describes about the non-conformities. (NC) The lab has not defined responsibilities and authorities for the management of non-conforming work, (NC). The lab has developed a register for recording the non-conforming work, but lab not checking the significance. (NC)	
 Signatures	

Significance/Priority Level	☒ Urgent ☐ Normal ☐ Non-significance
☒ Accepted ☐ Rejected	Assigned to: Masab Rasheed Date: 03-02-2025

* If accepted then Manager QC to mark it to concerned person for Root Cause Analysis.

B. Root Cause Analysis (where required)

- The root cause of this non-conformance is that the procedure (QCL-LSP-14) was designed with a narrow focus on identifying non-conformities but missed addressing how to prevent or correct them, likely due to a lack of training or awareness about comprehensive quality management practices.
- The lab's management overlooked the need to define clear roles and responsibilities for handling non-conforming work, likely due to a lack of awareness or focus on this aspect during system implementation.
- The root cause is incomplete training needs analysis, which led to insufficient awareness of the importance of assessing the significance of non-conforming work.

C. Proposed Action	Target Date:	10-02-2025
---------------------------	---------------------	-------------------

Corrective action for shortcomings on all the NCs has been taken by revising the procedure (QCL-LSP-14) and defined the responsibilities and authorities for the management of non-conforming work. The lab has revised the format on register and added the significance evaluation.

Name or Signatures

(Person who carried out Root Cause Analysis and Proposed Corrective Action)

D. Verification by Manager QC for implementation & Effectiveness

Is Proposed Action Implemented?	☒ YES ☐ NO	Is it Effective?	☒ YES ☐ NO
---------------------------------	---	------------------	---

Remarks (If any):

Cause Effect Diagram

3W2H /5W2H	Phenomenon of Problem / Question	Explanation / Answer
WHY	Why did employees not assess the significance of non-conforming work?	Employees were not aware of the correct procedure for identifying and assessing non-conforming work.
WHY	Why were employees not aware of the procedure for assessing non-conforming work?	Because the necessary training on the importance of non-conforming work and its significance was not provided adequately.
WHY	Why was adequate training on non-conforming work not provided?	A complete training needs analysis was not conducted to identify the specific training gaps in this area.
WHY	Why was a complete training needs analysis not conducted?	Because the training needs analysis process was either incomplete or not thorough enough to cover all critical areas, such as non-conforming work assessment.
WHY	Why was the training needs analysis process incomplete or not thorough enough?	Because there was no standardized process in place for ensuring the training needs analysis addressed all critical areas, including non-conforming work, or it wasn't reviewed regularly for thoroughness.

ROOT CAUSE ANALYSIS FORM

Doc. No.	QCL-FRM-9.04
Issue Date	01-10-2024
Rev#	01

How	How can we correct the issue of insufficient awareness about non-conforming work?	By conducting a comprehensive training needs analysis to identify and address any gaps in knowledge about non-conforming work, specifically focusing on assessment and the significance of non-conformities.
How	How can we prevent this issue in the future?	By implementing a standardized review process for the TNA, ensuring that non-conforming work and its importance are always included. Additionally, providing ongoing training and reminders to ensure that employees are consistently aware of the significance of non-conforming work.
Root Cause: The root cause is incomplete training needs analysis, which led to insufficient awareness of the importance of assessing the significance of non-conforming work.		

RCA Statement: The root cause is incomplete training needs analysis, which led to insufficient awareness of the importance of assessing the significance of non-conforming work.

Cause Effect Diagram

3W2H /5W2H	Phenomenon of Problem / Question	Explanation / Answer
WHY	Why is the lab not managing non-conforming work effectively?	Responsibilities and authorities for NC management are not clearly defined.
WHY	Why are responsibilities and authorities for NC management not defined?	There is no documented process or procedure addressing the assignment of roles for NC handling.
WHY	Why is there no documented process or procedure?	The lab did not prioritize defining this process during the implementation of its management system.
WHY	Why was the process not prioritized?	Management was focused on other aspects of compliance and overlooked the importance of NC management.
WHY	Why did management overlook the importance of NC management?	A lack of awareness or training regarding the criticality of managing NCs in ensuring quality and compliance.
How	How can the lab prevent this issue in the future?	The lab should create and implement a standard operating procedure (SOP) that defines roles, responsibilities, and authorities for managing non-conforming work. This should be

	ROOT CAUSE ANALYSIS FORM	Doc. No.	QCL-FRM-9.04

		reviewed and approved by management.
How	How can the lab ensure the effectiveness of the solution?	Provide targeted training to staff and management on NC procedures and their importance. Additionally, conduct regular audits and reviews to ensure adherence to the procedure.
Root Cause: The lab's management overlooked the need to define clear roles and responsibilities for handling non-conforming work, likely due to a lack of awareness or focus on this aspect during system implementation.

1.0 PURPOSE

The purpose of this procedure is to provide the guidelines to handle the nonconforming work in accordance to the Lab Management System based on ISO/IEC 17025:2017.

2.0 SCOPE

This procedure covers all the situations where there are deviations from the defined policies and procedures or the agreed requirements of the customer.

3.0 RESPONSIBILITY

3.1 Quality Control Manager (QCM) is responsible for implementation of this procedure and assurance of its compliance.

3.1.1 Is authorized to halt any testing or procedures, withhold of reports and recall of work related to the nonconformance and to invalidate test results that are affected

3.1.2 Has the authority for work resumption and acceptance of nonconforming work.

3.2 Assistant Quality Control Manager (AQC)

3.2.1 Identification and significant evaluation of non-conforming work

3.2.2 Identification and significant evaluation of non-conforming work.

3.2.3 Conduct root cause analysis of identified nonconformance and initiate corrective action.

3.2.4 To implement the corrective action within specified timeframe.

3.2.5 For the follow up of corrective and preventive action in consultation with QCM.

3.3 All Lab personnel are responsible for the identification of any nonconforming working and intimate Lab Management for further course of action and maintenance of "Nonconforming Record" register.

4.0 PROCEDURE**4.1 Identification of Nonconformities**

All the persons working in the lab have the responsibility to identify and report any practice which deviates from the defined policies and procedures to the AQC.

The potential nonconformities can arise from but not limited to the following situations:

- a. Results of quality control samples or practices
- b. Unfavorable environmental conditions affecting the test results
- c. Equipment problems
- d. Laboratory Activities
- e. Staff observations
- f. Calibration results
- g. Supervision records
- h. Complaints
- i. Customer feedback

MASTER**CONTROLLED COPY****NO. _____**

- j. Internal and External Audits
- k. Management Review Meetings
- l. Risk Assessment

Identified nonconformities against any procedure, quality control parameter is recorded on "**Nonconformance Form**" that consists of the following fields;

- a. NC #. (NN/YYYY where "NN" represent the number of NC's and "YYYY" represent the year)
- b. Date
- c. Description of nonconformance
- d. Initiator Name and Signature
- e. Source of Non-conformance
- f. Nonconformance Significance Evaluation based on Impact on previous result, Risk Level, type of nonconformance.
- g. Action required on Nonconformance including halt of work, withhold of reports and recall of work

4.2 Non-Conformance Significance Evaluation

QCM/AQCM evaluate significance of non-conformity (to identify potential source of non-conformity) based on impact on previous result and magnitude/impact of associated risk on Non-Conformance form (QCL-FRM-14.01) and makes decision whether accepted/rejected. In case of rejection the further process is not carried out. Nonconformance is mention in the Nonconformance log whether it is accepted or rejected and record is maintained.

Non- Conformance Acceptance/Rejection Criteria;

if magnitude/impact of associated risk on non- conforming work is very low then non-conformity is declared non- essential and rejected otherwise accepted.

4.3 Actions required on Nonconformance

After the acceptance of Non-conformance AQCM will decide the action required on nonconformance such as withhold of reports, halt of work and recall of work on the basis of significance evaluation of nonconformance.

4.4 Root cause analysis on Nonconformance

Root cause analysis on Nonconformance is carried out on the Root Cause Analysis form (QCL-FRM-14.03). The responsible person investigates the causes of the problem that initiated the request. The investigation is carried through 4M's technique that includes:

- a. Man
- b. Method
- c. Machine
- d. Material

4.5 Similar Nonconformance

After root cause analysis AQCM will inspect and identify the similar nonconformance if there is chance of similar nonconformance then AQCM will initiate the Nonconformance and corrective action is carried out according to the procedure.

 MASTER 4.7 Work Resumption	NON-CONFORMING WORK	
	Doc. No.	QCL-LSP-14
	Issue Date	27-01-2025
	Rev#	02

CONTROLLED COPY
NO. _____

On, or immediately after the set target date and time, AQCM checks the implementation of the corrective action and informs QCM to verify the effectiveness of the implemented action. In case the action is found implemented effectively then QCM will allow the resumption of work

Note: Only QCM/AQCM can authorize for the resumption of work after the appropriate correction has been made or corrective action has taken.

4.8 Corrective Action found unimplemented

In case the action is found unimplemented or ineffective then matter is raised on new Corrective Action form by AQCM and its CA number is mentioned on previous CA form till satisfied corrective action is being taken.

4.8 Recurrence of Nonconformance

In case there is chance that nonconformity can recur or there is an obvious deviation in the lab practices from defined policies and procedures then Lab Coordinator will initiate a corrective action request according to the LSP for Corrective Action.

		3W2H / 5W2H	☒

Cause Effect Diagram

3W2H / 5W2H	Phenomenon of Problem / Question	Explanation / Answer
WHY	Why is the lab not assessing the significance of the non-conforming work?	There is no defined procedure or guideline for assessing significance.
WHY	Why is there no procedure or guideline for assessing significance?	The management overlooked the need for significance assessment during the development of the register.
WHY	Why did the management overlook the need for significance assessment?	There was a lack of awareness or training regarding the importance of significance evaluation in the non-conformance process.
WHY	Why was there a lack of awareness or training?	The training program for lab staff and management does not cover this critical aspect of non-conformance management.
WHY	Why does the training program not cover this aspect?	Training needs analysis was incomplete or improperly conducted, failing to identify this requirement.
How	How can we ensure the lab starts assessing the significance of non-conforming work?	Develop and implement a procedure for assessing the significance of non-conforming work, including risk evaluation and impact analysis.

	ROOT CAUSE ANALYSIS FORM	Doc. No.	QCL-FRM-9.04
		Issue Date	01-10-2024
		Rev#	01

		• Train staff on how to apply this procedure.
How	How can we prevent this issue from occurring again?	• Revise the Training Needs Analysis process to ensure all critical aspects of non-conformance management are covered. • Conduct periodic audits and reviews to verify that the procedure is being followed and is effective.
Root Cause: The root cause is incomplete training needs analysis, which led to insufficient awareness of the importance of assessing the significance of non-conforming work.		

RCA Statement: The root cause is incomplete training needs analysis, which led to insufficient awareness of the importance of assessing the significance of non-conforming work.
